

AKSHAY DEEPAK PAWAR

Koparkhairane, Navi Mumbai | ap3690700@gmail.com | +91 9326182557 | [LinkedIn](#) | [GitHub](#) | [Leetcode](#)

PROFESSIONAL SUMMARY

Full Stack Developer skilled in JavaScript, TypeScript, and Next.js, with a strong foundation in Data Structures and Algorithms. Hands-on experience in building scalable web applications and developing efficient APIs using modern technologies. Proficient in database design, clean architecture, and writing high-quality, maintainable code. Eager to contribute to real-world applications and grow as a software engineer.

TECHNICAL SKILLS

Languages: JavaScript, SQL, C++, HTML5, CSS3

Frontend: React.js, Next.js, Tailwind CSS, shadcn/ui

Backend & APIs: Node.js, Express.js, AI SDK, RESTful APIs

Database: MongoDB, PostgreSQL (Neon), MySQL

ORM: Prisma

Tools & Platforms: Git, GitHub, Docker, Postman, VS Code, Linux

Deployment: Vercel, Netlify

PROFESSIONAL EXPERIENCE

Web Development Intern | Prodigy InfoTech

Aug 2023 – Sep 2023

Remote, India

- Developed responsive user interfaces using React.js, improving overall user experience and application performance
- Built and integrated RESTful APIs to enable efficient communication between frontend and backend systems
- Collaborated on feature implementation, debugging, and code optimization, ensuring clean and maintainable code

PROJECTS

Full-Stack Coding Platform | [GitHub](#) | [Live](#)

Feb 2026 – Mar 2026

Tech Stack: Next.js, TypeScript, React.js, Node.js, PostgreSQL (Neon), Prisma, Clerk, Judge0 API, Tailwind CSS, Vercel

Built a full-stack LeetCode-like coding platform using Next.js and TypeScript, enabling users to solve problems and track progress.

- Integrated Judge0 API for real-time code execution and automated evaluation against test cases
- Implemented secure authentication and user management using Clerk, including user profiles and submission history tracking
- Designed and developed RESTful APIs and backend logic for problem management, submissions, and playlists
- Built admin features to create, edit, and manage coding problems with custom test cases and configurations
- Used Prisma ORM with SQL databases for efficient data modeling and query optimization
- Focused on scalable architecture, modular code structure, and maintainable design patterns

AI Chat Application | [GitHub](#) | [Live](#)

Mar 2026 – Apr 2026

Tech Stack: Next.js, React.js, Prisma ORM, PostgreSQL (Neon), Better Auth (GitHub OAuth), OpenRouter API, AI SDK, Tailwind CSS, shadcn/ui, Vercel

Built a full-stack AI chat application with real-time streaming responses using Next.js and AI SDK.

- Integrated 30+ AI models via OpenRouter with dynamic model selection
- Implemented secure authentication using Better Auth (GitHub OAuth)
- Designed scalable backend using Prisma ORM with PostgreSQL for persistent chat and message storage
- Developed features like chat history, search functionality, and dynamic chat grouping
- Built and deployed the application end-to-end, focusing on production debugging and performance optimization

CERTIFICATIONS & ACHIEVEMENTS

- SQL** - Simplilearn (Feb 2025) | Credential ID: 7854037
- C and C++ Programming** - Disha Computer Institute (Dec 2021) | Credential ID: D8842443086
- Web Development** - Simplilearn (Jan 2025) | Credential ID: 7815632
- Secured a **Top 10 position** in **RUBIX 2024 (CSI TSEC) hackathon**, showcasing problem-solving and innovation skills.

EDUCATION

B.E. in Computer Science

Terna Engineering College, Nerul | CGPA: 8.57/10 | May 2025
