WORK EXPERIENCES

Freelance Full-Stack Developer | Self-employed

May 2026 - Present

Freelancer

Hybrid • India

- Developed and deployed a production-ready real estate platform featuring **50+ property listings** and a responsive user experience.
- Built a full-stack CMS with a secure admin dashboard, enabling management of **50+ listings, blogs, and media assets** from a single interface.
- Implemented advanced search, filtering, image galleries, and lead management workflows, reducing the effort required to discover relevant properties.
- Developed a CMS-driven blog system and integrated Cloudinary to manage **100+ high-resolution images** with optimized delivery and storage.
- Secured administrative operations using JWT authentication, bcrypt password hashing, and **100% protected admin routes**.
- Improved SEO across **20+ pages** through sitemap generation, robots.txt configuration, and metadata optimization.

Technologies / Skills Used : Next.js, Prisma ORM, PostgreSQL, Cloudinary, JWT, bcrypt, Supabase

PROJECTS

StackSpend AI Spend Audit Platform | GitHub Vercel

Apr 2026 - May 2026

Individual Project

- Built a full-stack AI spend auditing platform that analyzes **7+ AI tools and services** to identify monthly and annual subscription cost optimization opportunities.
- Implemented AI-generated audit summaries using OpenRouter and GPT-4o Mini, delivering **100% deterministic audit recommendations** with explainable outputs.
- Built shareable audit reports with PDF export, audit history tracking, lead capture, email delivery, and Open Graph metadata.
- Developed an end-to-end workflow covering **audit generation, report sharing, email distribution, and historical audit management**.
- Integrated PostgreSQL and Prisma ORM to manage **audit records, user submissions, and reporting data** efficiently.

Technologies / Tools Used : Next.js, PostgreSQL, Prisma ORM, OpenRouter, Resend, Tailwind CSS, Vitest, GitHub Actions

AI Chat Application | GitHub Vercel

Mar 2026 - Apr 2026

Individual Project

- Built a production-ready AI chat platform supporting **30+ AI models** with real-time streaming responses and multi-provider integration.
- Implemented secure authentication using Better Auth and designed **10+ relational database models** using PostgreSQL and Prisma ORM.
- Developed chat persistence, conversation history, search, creation, and deletion features, enabling management of **unlimited chat sessions**.
- Integrated AI SDK and OpenRouter APIs to support **30+ LLMs** across multiple AI providers through a unified interface.
- Built responsive, full-stack application workflows spanning **authentication, chat management, AI inference, and data persistence**.

Technologies / Tools Used : Next.js, TypeScript, PostgreSQL, Prisma ORM, Better Auth, AI SDK, Tailwind CSS

Full-Stack Coding Platform | GitHub Vercel

Feb 2026 - Mar 2026

Individual Project

- Built a full-stack coding platform featuring real-time code execution, problem management, submission tracking, and user authentication.
- Integrated Judge0 API to compile and execute code across **3 programming languages** with automated test-case evaluation.
- Developed role-based admin tools for managing **50+ coding problems**, test cases, and language configurations through a centralized dashboard.
- Implemented user profiles, submission history tracking, and custom playlists, enabling organization of **multiple interview preparation paths**.
- Designed PostgreSQL schemas and Prisma workflows to support **problem management, submissions, playlists, and user activity tracking**.

Technologies / Tools Used : Next.js, TypeScript, PostgreSQL, Prisma ORM, Clerk Authentication, Tailwind CSS, Judge0

SKILLS

Programming Languages :	JavaScript, TypeScript, SQL, C++
Frameworks & Libraries :	React.js, Next.js, Tailwind CSS, shadcn/ui, Node.js, Express
Databases :	PostgreSQL, MongoDB, MySQL, Supabase
Tools & Platforms :	Git, GitHub, Docker, Linux, Postman, Prisma, Vercel, GitHub Actions, CI/CD
Core Computer Science :	Data Structures & Algorithms, OOP, DBMS, Operating Systems, Computer Networks
Soft Skills :	Communication, Problem Solving, Stakeholder Management

EDUCATIONS

Year	Degree	Institute	CGPA/MARKS
2025	B.E. in Computer Science	Terna Engineering College	8.57 / 10

CERTIFICATIONS

Database Management Systems (DBMS)

2026

Scaler Topics

Certification Url : https://moonshot.scaler.com/s/sl/vErSTR_Mbx

Data Structures and Algorithms (DSA)

2025

Code Help

Certification Url : <https://learn.codehelp.in/share-certificate?serialno=OEXFE7DO>

AWARDS & ACHIEVEMENTS

- Solved **450+** Data Structures and Algorithms problems on **LeetCode**.
